Databases: SQL, MySQL, Relational Modeling

Cloud: AWS, Azure

Tools: Git, GitHub, VS Code, React, Tableau Public, Figma, Canva

Additional: UI/UX Design, Responsive Web Design, Prototyping, Data Analysis, Business Intelligence, OOP, Version Control, AI-Assisted Development

SELECTED PROJECTS

Pasabog — Game Jam Winner | UI Designer & Storymaker

- Designed player UI/HUD elements and contributed interactive narrative and lore for a game developed during a rapid game-development sprint.
- Collaborated with developers to align interface design, gameplay, visual direction, and storytelling; published the completed game on itch.io.

Liwanag Gaming Cafe Analyst | Tableau Public, SQL

- Analyzed workstation utilization, peak gaming hours, session duration, and operational revenue patterns to produce business intelligence insights.
- Built data visualizations and KPI-focused dashboards to translate operational data into clear findings.

Kamalayang Kapwa Kalikasan | Marketing & Tech Officer, UI/UX Lead

- Contributed to an environmental advocacy web platform connecting Filipino communal solidarity with grassroots climate education.
- Led UI/UX direction and supported digital outreach, web development, and technology initiatives.

Project Apex | Systems Architecture Lead

- Designed a centralized governance portal for student activity proposal submissions, multi-tier approvals, and audit tracking.
- Applied SQL modeling, workflow automation, and full-stack system concepts to organize student governance processes.

LEADERSHIP & EXPERIENCE

Chief Communication Officer — AWSSBG-Makati | 2026–Present

- Directs chapter communications, workshop outreach, executive announcements, recruitment campaigns, and student engagement for an AWS student community.

Producer — Mapúa Radio Cardinal | 2024–Present

- Coordinates technical broadcast operations, host schedules, and post-production while supporting creative direction and program delivery.

COMPETITIONS & ADDITIONAL LEADERSHIP
